

Psychiatry Provider, APRN or PA-C.

Northern Nevada HOPES seeks a new colleague in our provider team to deliver high quality, evidence-based psychiatric outpatient services to our patients. We look for skilled and motivated individuals who are driven by a passion to serve.

At Northern Nevada HOPES, we are dedicated to building a healthier community by providing coordinated care and support for individual and family wellness. We are a non-profit community health center located in a historic and quaint area of downtown Reno, Nevada that provides integrated medical and wellness services. Our teams all work together to assist patients in their quest to improve health. We welcome all individuals, wherever they are in life, and provide a safe and accepting place to access affordable, high-quality healthcare services.

We are an impressive team of and our current clinical and supportive services include:

- 1) Primary medical care for adults, adolescents and children
- 2) Behavioral health counseling
- 3) Psychiatric care
- 4) HIV specialty care
- 5) Medication Assisted Treatment specialty care
- 6) Hepatitis C specialty care
- 7) Transgender specialty care for adults
- 8) Nutrition services
- 9) Comprehensive social support services
- 10) Harm reduction outreach and prevention
- 11) Laboratory, x-ray and pharmacy services on site.

Important things to know about us:

- 1) We are a certified Patient-Centered Medical Home, recognized by the National Commission on Quality Assurance
- 2) We are a Federally Qualified Health Center (FQHC). The mission of all FQHCs is to provide excellent health care services to otherwise under-served populations. We accept most insurance plans, Medicaid, Medicare, and the uninsured. For the uninsured, we offer discounted services based on a sliding fee scale.
- 3) We are a National Health Service Corp site, and our providers are eligible to apply toward a federal loan forgiveness program

We are actively seeking and recruiting for a mid-level with a psychiatric specialty with:

- A passion to work with challenging patients in an environment that seeks to address all their health-related needs.
- Willingness to collaborate and work closely with medical providers and therapists, case managers and community health workers, all of whom are mission driven and believe in an integrated health care model, and love the idea of teammates.
- A license and/or board-certification in psychiatric care. You specialize in adults, adolescents, children, or all of the above. You aren't intimidated by the task of learning a new EMR, new CQI/HEDIS or new ICD-10 codes.

- Ability to speak more than one language, ideally.

Please reach out to us with your CV.
